

The Right Needle for YOU is...

Long Enough to reach the site and **Strong Enough** (doesn't bend or block) and then **As Small as Possible** (to reduce vein damage and scarring).

Not all exchanges will stock all these needles; individual anatomy, drug of choice, site health and preference will influence which needle a person will want to use.

Pick A Needle Which is Right for You.

21G: 2" –very deep femoral vein
1 1/2" Drawing up, steroids in big muscles,
deep femoral vein – (use 22G or 25G instead)

23G: 1 1/4" Femoral vein, smaller muscles
1" Femoral vein, small muscles
(could go down to 1" 25G for groin instead)

26G: 1" Femoral vein
3/8" superficial veins

29G: 1/2"
sub cut
small veins

22G: 1 1/2" Drawing up,
steroids in big muscles,
deep femoral
(use 1 1/2" 25G for fem if possible)
1": Muscles, femoral
(could go down to 1" 23G instead)

25G 5/8" Superficial veins
1" shallow femoral
1 1/2" deep femoral vein

27G: 3/4", 1/2" superficial veins
1/2" sub cut

30G: 1/2"
superficial veins
sub cut
